[Shared Tenant Services](#)

Bid Date: 4/18/2024 2:00 PM

San Diego

Shared Tenant Services: The San Diego County Regional Airport Authority ("Authority") seeks proposals from firms or individuals ("Respondent") to obtain a Shared Tenant Services Provider ("STS Provider") to perform installation, maintenance and support services to airlines, concessionaires, and third-party operators ("Tenants") that subscribe to Shared Tenant Services ("STS") operating at San Diego International Airport. Installation, maintenance and support services include, but are not limited to: fiber and copper cabling installation and extension, cable management and labeling, management of Cisco networking switching and routing infrastructure, management of coaxial and network television ("CATV"/"IPTV"), Voice over Internet Protocol ("VoIP") phone deployment, and providing Wi-Fi SSIDs to Tenants. STS Provider shall bill the Tenants on a monthly basis for the subscribed STS, hourly labor rates for installation, and materials including markup. STS Provider shall pay the Authority a License Fee Percentage of Gross Sales to be specified in Exhibit B. A draft scope of work is posted in "Exhibit A" of the draft contractor agreement set forth in the RFP.

[Quieter Home Program Phase 13 Group 6](#)

Bid Date: 4/18/2024 2:00 PM **San Diego**

The project includes sound attenuation improvements for certain residences around San Diego International Airport. The project includes 32 dwelling units located on 20 non-historic residential properties. Sound attenuation improvements may include, but are not limited to, replacement of windows and exterior doors, finely detailed, field-executed finish carpentry, and improvements to add air conditioning, ventilation and electrical work to support such systems. The work will include the demolition and modification of existing construction to install new windows and doors and, in some cases, may require temporary weatherproof closures.

[5652 Encinitas Garden View L-001, 271 Oncology Linac And Ct Simulator Replacement \(Selection of Executive Architect\)](#)

Bid Date: 4/18/2024 4:00 PM

La Jolla

The proposed Encinitas Garden View L-001, 271 Oncology Linac and Ct Simulator Replacement project consists of an equipment replacement and associated interior renovation to replace an oncology linear accelerator and associated CT simulator. Renovation will include infrastructure upgrades, interior partition relocation, interior finish and cabinetry upgrades. This project will be an HCAI 3 licensed facility. The estimated construction cost is \$1,500,000. This project will replace aging linear accelerator and CT Scan equipment at the Encinitas Oncology Clinic. This building renovation is approximately 1,560 gross square feet (GSF).

AGC #: 24-01691

Project Type: RFQ

Addenda: 0 **Ref#:**

Est: \$1,500,000

Misc. Notes: To be considered for this project, submit electronic materials via email to Kari Osborne (kjosborne@ucsd.edu) and Aubrey Ngyun (amn022@ucsd.edu) with the subject line:

"5652 ENCINITAS GARDEN VIEW L-001, 271 ONCOLOGY LINAC AND CT SIMULATOR REPLACEMENT"

Proposers will receive a response confirming the receipt of their proposal. If you do not receive a confirmation email in one business day, please contact Kari Osborne immediately.

Proposals are due no later than 4:00 p.m. on Thursday, April 18, 2024

Please note that each RFQ submittal is important to UC San Diego.

[As-Needed Property Inspections: Stormwater and Fats, Oils, and Grease \(FOG\)](#)

Bid Date: 4/22/2024 4:00 PM

Vista

SummaryThe City of Vista, including the Buena Sanitation District (collectively "City"), is soliciting proposals from qualified professional consulting firms (Consultant) to conduct as-needed Stormwater and Fats, Oil, and Grease (FOG) inspection services. The stormwater inspections are for existing development and the FOG inspections are for Food Service Establishments (FSE) as part of the City's Sewer System Management Plan (SSMP). Both inspection programs are intended to comply with applicable Regional Water Quality Control Board stormwater and sanitary sewer system permits. This Request for Proposals (RFP) includes a description of the proposal requirements, criteria for selection, and the scope of services to be provided by the Consultant. The City intends to award one contract to provide the requested services for a three-year term, with an optional extension for two additional years for a maximum term of five years from the date of the contract. Services under this contract are currently not anticipated to exceed \$300,000 over the term of the agreement.

[Park Boulevard at Grade Crossing \(Package 1\)](#)

Bid Date: 4/25/2024 3:00 PM

San Diego

The Project is located within the Burlington Northern & Santa Fe, San Diego & Imperial Valley Railroad and Metropolitan Transit System (MTS) railroad rights of way in the vicinity of Park Boulevard and Harbor Drive in downtown San Diego, California. This construction project involves demolition of existing track and overhead catenary improvements, excavation, sampling, handling, transportation and disposal of contaminated ballast and soil, archaeological, Native American, and paleontological monitoring, construction of new track and overhead catenary improvements, and the installation of railroad signal infrastructure. The Work described by these Contract Documents, is known as Package 1, and is a predecessor to Park Boulevard at Grade Crossing Package 2. Package 2 will include construction of roadway, irrigation, landscape, grade crossing protection equipment, and traffic signal improvements. Railroad signaling system integration, testing, and commissioning with the traffic signal equipment will be completed in Package 2. The Package 2 bid opportunity will follow the completion of the Work described in Package 1.

[2024 Potable Water Tank Inspection and Cleaning Project](#)

Bid Date: 4/29/2024 12:00 PM

San Marcos

The Vallecitos Water District (District) is soliciting proposals from professional tank commercial dive firms with substantial experience in the cleaning and inspection of potable water storage facilities. The contract will include cleaning and inspection services by a diver of the District's potable water storage tanks. Factors to be considered include equipment, price, warranty, references, and experience. The District will be the sole judge of the weights given these factors. The successful Contractor shall furnish all labor, materials, equipment (including hydraulic compressor), fuel, tools, licenses, bonds, and insurance necessary to perform the required services outlined in this RFB document. The cleaning and inspection will take place while the tanks remain in service. All persons and materials entering the tank/reservoir shall be disinfected in accordance with the standards outlined in AWWA C652-19 (Disinfection of Water Storage Facilities). The Contractor will always have a fully certified stand-by diver on-site while a primary diver is working in the tank.

[Design of Miramar Water Treatment Plant Residuals Redirection](#)

Bid Date: 4/30/2024 4:00 PM

San Diego

The North City Pure Water Facility (NCPWF) is in construction, north of Eastgate Mall across from the existing NCWRP. Once operational, the new plant will have a production capacity of up to 34 million gallons a day (mgd). The purified water from the NCPWF will be conveyed to Miramar Reservoir (MR). Some updates at the Miramar Water Treatment Plant (Miramar WTP) are needed to accommodate the change to the reservoir level that is needed to reach Pure Water's goals. The City's Miramar Water Treatment Plant generates residuals in two process locations: sedimentation basin settled solids and spent filter backwash water. Instead of returning these residuals to the Miramar Reservoir, the City is requesting proposals for the design of a residuals redirection project in which the scope entails but may not be limited to an equalization tank and clarifier, along with pumps and associated piping at the treatment plant to manage residuals prior to discharging to the sewer collection system. Also, the design shall include a solution for returning clarified filter backwash to the plant headworks for reuse.

[Historical Property Inventory \(HPI\) for Santa Ysabel Main & Canyon Water Storage Tank Repairs Project](#)

Bid Date: 4/30/2024 2:00 PM **Santa Ysabel**

The proposed action (Project) will also involve road repairs to an existing access road to each tank. This will including up to 10 potholes per road. Each pothole will be 4 inches in diameter with a max depth of approximately 5-feet. This will determine required road prism improvements. For the Main system access road it is anticipated approximately 300 feet of existing road will be excavated to a depth of 3-feet. It is anticipated the excavation will be the removal of previous road base. This base will be reconstructed with a new road prism and surface cap. The remaining 750 feet, the top 6-12 inches of road surface will be excavated and compacted. This material is all preexisting road fill and pre-disturbed. For the second access road (Canyon Tank, 600 feet), the surface will be excavated to a depth of approximately 1 foot and re-compacted. This is all existing fill.

[Biosolids Hauling and Reuse \(Disposal\) Services](#)

Bid Date: 5/1/2024 2:00 PM **Carlsbad**

The CONTRACTOR shall transport biosolids generated at the EWPCF using CONTRACTOR trucks and unload at Authority-approved site(s). The CONTRACTOR shall monitor, document and report all project-related activities. The project consists of hauling and/or handling. Under a hauling scenario, CONTRACTOR transports and unloads biosolids only. Under a handling scenario, CONTRACTOR will transport, unload and dispose or land apply biosolids at Authority-approved sites. The EWPCF generates approximately 5,500 dry metric tons of Class A and Class B biosolids per year. Some of the Class A biosolids are hauled by fertilizer customers; thus, the actual quantity available will vary.

[Access Control System for West Building](#)

Bid Date: 5/8/2024 3:00 PM

San Diego

SANDAG is seeking contractor to furnish and install a functional Security Access Control System. The Scope of Work includes door preparation, hardware, installation of Smart Card access control readers, programmable Smart Cards, surveillance camera and CCTV components, software configuration, training, maintenance, and technical support. The installation services will not include work on fire alarms but will incorporate any and all cabling installations needed to provide a functional system. Work will require coordination with other contractors who will carry out other construction and tenant improvements. The contractor will be required to remove all existing security cameras, card readers, and associated hardware within SANDAG's office space at 401 B Street (Floors 5, 7, 8, 9, 10, and 20) following the move to SANDAG's new office location.

[Sewer System Management Plan 2024 Audit](#)

Bid Date: 4/24/2024 4:00 PM

Riverside

a.) Task 1: Project Management: The consultant shall provide all efforts to manage all tasks in a cost effective, timely, and professional manner, including but not limited to, overseeing consultant efforts; attend kick-off meeting with SAWPA staff to solicit input and confirm approach and criteria; provide regular project status and invoices of appropriate detail and participate in (2) workshop with SAWPA staff to review findings and incorporate feedback..) Task 2: Audit: Data Review and Assessment: The consultant shall gather and review all pertinent documentation pertaining to the Sewer System Management Plan and compliance with WDR Order WQ 2022-0103-DWQ. SAWPA staff shall make themselves available to answer questions and deliver requested documentation or records. The Audit shall comply with the General Order and include at a minimum the following elements:• Evaluate the implementation and effectiveness of the Brine Line SSMP in preventing Spills;• Evaluate SAWPA compliance with WDR Order WQ 2022-0103-DWQ;• Identify SSMP deficiencies in addressing ongoing spills and discharges of waters of the State;• Identify necessary modifications to the Sewer System Management Plan to correct deficiencies.c.) Task 3: Draft and Final Audit Report: The consultant shall prepare a draft and final audit report of the findings as a result of Task 2. Consultant shall submit the draft report to SAWPA for review and incorporate comments. Then consultant shall submit to SAWPA for final review. The report shall be in the format of a technical memorandum.The future SSMP update in 2025 will document the implementation of the recommendations made in the Final Audit Report; Therefore the Final Audit Report must meet all standards of the Internal Audit Report described in WDR Order WQ 2022-0103-DWQ.The Draft and Final Report will include at a minimum:• Audit findings with recommended actions;• A statement that sewer system operators' input on the audit findings has been considered;• A proposed schedule for SAWPA to address identified deficiencies.• Create a template for future internal audits that comply with these requirements.

[Valley View Trunk Sewer Design](#)

Bid Date: 4/26/2024 2:00 PM

Coachella

CVWD's Engineering Department is requesting formal proposals from Respondents to prepare final plans, specifications, and cost estimates for the Valley View Trunk Sewer Design (Project). The Project work scope includes utility research, survey, potholing, right-of-way research and acquisition of necessary pipeline easements, fee title and temporary construction easements (TCE) if applicable (including preparation of legal descriptions and plats), geotechnical services, identification of alternatives and preferred pipeline alignments, final design documents, specifications, cost estimates, and permits for: 1. Proposed offsite improvements include a new sewer lift station (750 gpm firm capacity), 1,250 linear feet of 6-inch forcemain, 14,200 linear feet of 8-inch and 1,420 linear feet of 10-inch diameter gravity sewer pipeline along portions of Soto Street, Airport Blvd. The 6-inch forcemain will connect to CVWD's existing 10-inch gravity sewer pipeline at the intersection of Grapefruit and Avenue 57. This system is expected to include 44 manholes. Please refer to the attached exhibit for the project limits. 2. A new sewage lift station would be constructed at the southwest parcel of Desert Cactus Drive and Avenue 57th. From there 1,250 linear feet of 6-inch diameter force main would be constructed to the connection point on Grapefruit Blvd and Avenue 57. 3. The design effort needs to include onsite improvements and laterals needed to convey flows from Desert View Mobile Home Park, Magdalena Lopez Mobile Home Park, Campos Mobile Home Park, Meza's Ranch, Rodriguez' Ranch, Villa De Josue Mobile Home Park, Valley View Mobile Home Park, Leon Housing, Durans Farms, Oscar Cruz Water System, Luciano Valenzuela, Vista Norte Estates, De Leon Ranch, and Soto Water to the offsite sewer main. Approximately 6,175 feet of onsite pipelines for these 14 mobile home park to connect to the offsite sewer system. Onsite improvements also includes abandonment of 28 septic tanks. Please refer to the attached exhibit for the project limits.

[Community Development Annex Remodel Project](#)

Bid Date: 5/2/2024 3:30 PM **Calimesa**

The contract work for this project shall consist of various items which include, demolition/removal/disposal of materials that will not be used in this remodel, removal and re-installation of office furniture, files including file cabinets and copier, removal and disposal of the existing carpet and pad. Tightening or filling in of the marriage line seam found lengthwise down the middle of the annex floor. Prepping and painting all walls (patching, texturing to match and sanding), furnish and install new crown molding the type and color to match the existing crown molding in the city hall, install primer coats of paint (2 coats) and semi-gloss final paint coats (2 coats). Contractor to coordinate for the installation of cubicles/partitions and counter with the supplier (to be furnished and installed by the manufacturer), installation and/or relocation of all electrical to provide power to cubicles, counter and copier, and convenience outlets. Installation of commercial grade carpet squares in the Annex and City Hall per the specifications and drawings. Unless specifically listed as "City Furnished" in this Scope of Work, all materials required to complete the project shall be provided for by the contractor, at the contractor's expense. Scheduling is critical to minimize the disruption to the city staff, the City will discuss the actual timing/phasing for this construction project at the time of the mandatory job walk. Contractor shall take into account this phasing/scheduling in his bid proposal and no additional compensation will be paid.

[Storm Water and Drainage Infrastructure Assessment, Engineering Services](#)

Bid Date: 5/6/2024 4:00 PM **Palm Desert**

The City desires to complete a thorough Storm Water and Drainage Infrastructure Assessment of the existing collection and conveyance systems as well as retention/detention facilities throughout the City. It is estimated that the system contains 980 catch basins and related pipes, manholes, and junction structures. The City proposes to complete the Assessment in a multiple phase approach ending with a report and database that accurately documents all existing facilities (location, size – e.g. catch basin width, pipeline diameter, centerline offset, etc.) and system conditions in order to provide improve emergency responses and to enhance overall system management. The City desires to retain a consulting team to prepare an assessment of the system.

Professional Geotechnical, Material Testing and Construction Inspection Services (City Project Nos. 801 0101, 801 0110, 804 0015)

Bid Date: 5/7/2024 2:00 PM **Moreno Valley**

The City of Moreno Valley desires to select one firm through this RFP process to perform professional geotechnical, material testing and construction inspection services for three (3) construction projects: Citywide Pavement Rehabilitation Program FY 23/24 (Project No. 801 0101), Pavement Rehabilitation for Various Streets (CDBG FY 23/24) (Project No. 801 0110) and Sunnymead MDP Line B-16A (Project No. 804 0015). The Citywide Pavement Rehabilitation Project provides pavement rehabilitation and preservation for approximately 135 local and arterial streets. The Pavement Rehabilitation for Various Streets (CDBG FY 23/24) consists of the construction of approximately 1,400 linear feet of 24" RCP mainline storm drain connecting to an existing storm drain line on Day Street, construction of a new asphalt road on Brill Road and street improvements for fifteen (15) local streets. The Sunnymead MDP Line B-16A Project consists of the construction of approximately 2,500 linear feet of a 24" RCP mainline storm drain connecting to an existing storm drain line on Kitching Street, termination on Kalmia Avenue and the construction of a new asphalt road on Kitching Street. The selected Consultant will be required to have personnel available for assignments to these projects who have successfully provided professional services as it relates to all activities of public works construction. The selected Consultant shall provide geotechnical, material testing and inspection services with personnel trained and experienced in geotechnical and construction inspection work for the construction of public works improvements and particularly the types of construction required for these projects.

[Construction Management Services for US395 Phase 2 Widening Project](#)

Bid Date: 5/9/2024 2:00 PM **San Bernardino**

The San Bernardino County Transportation Authority ("SBCTA") is seeking professional services for the construction management for the US395 Phase 2 Widening Project ("Project") and to relieve congestion and enhance the safety and operational efficiency of the corridor by constructing a continuous four-lane highway, which would improve passing opportunities and add capacity to meet future traffic volumes. The existing US-395 has two lanes within the project limits, one lane in each direction, with additional turning lanes at intersections. This Project would widen US-395 from 2 lanes to 4 lanes, with a continuous median, for a distance of approximately 7 miles between I-15 and SR-18 (Palmdale Rd) including adding a bridge over the California Aqueduct.

[Stewart Park Improvement Project](#)

Bid Date: 5/17/2024 11:00 AM

Beaumont

The Base Bid includes demolition of existing park facilities and the former streets along E. 9th Street and E. 10th Street between Orange Avenue and Maple Avenue. The Base Bid additionally includes grading and construction of stormwater features within the entire park site bounded by the southern edge of E. 11th Street to the park's southern boundary and between Orange Avenue and Maple Avenue. Park improvements included in the Base Bid are shown in the Base Bid Area of the Plans and include installation of new headwalls and culverts for the flood basin on the northern area of the park; construction of a new multi-level playground with premanufactured towers, swings, slides, a zip line, and modular tunnel, as well as shade structures and seating; construction of a new splashpad; construction of a combined restroom and pump station building with electrical, water, and sewer connections; construction of new pathways with picnic areas and seating spaces; installation of pedestrian lighting along pathways and in key use areas in the Base Bid area; installation of a new irrigation system and providing irrigation to the planting within the Base Bid area; planting new trees, turf grass, and shrubs through the Base Bid Area; and reconfiguration of the western side of Maple Avenue to provide street parking along the park. The Base Bid includes coordination with a premanufactured building provider to obtain final building plans and foundation details for the restroom and pump station building. The contractor shall obtain a no-fee building permit for these plans prior to construction. Following approval, the contractor shall construct the foundation and coordinate shipping and installation of premanufactured structure.
