MEMBER SPOTLIGHT

EVERY MONTH WE WANT TO TURN THE SPOTLIGHT ON MEMBERS WHO ARE MAKING AN IMPACT IN OUR INDUSTRY. THESE MEMBERS EXEMPLIFY THE MISSION OF THE BUILDERS EXCHANGE TO ADVANCE, SERVE AND SUPPORT THE BUILDING AND CONSTRUCTION INDUSTRY. IF YOU ARE INTERESTED IN BEING HIGHLIGHTED OR NOMINATING ANOTHER MEMBER FOR THE SPOTLIGHT, PLEASE CONTACT IVET SILVA AT NORTHOFFICE@SLOCBE.COM

JB DEWAR

FUELING EXCELLENCE SINCE 1933

AUGUST/ SEPTEMBER 2019
MEMBER SPOTLIGHT NO. 6

At JB Dewar, we take pride as the premier Central Coast-based expert provider of fuel and automotive products. With decades of family-run service, we're honored to deliver value reaching far beyond a product line that sets the standard for excellence. We're not only a supplier, but an ally, willing and able to promote our customers' long-term success.

Since our founding, we've forged a tradition of family, community, and value, providing the highest quality fuel, lubricants, equipment and other products to the agriculture, farming, trucking, construction, energy, and repair shop industries. With eight Central Coast locations and around-the-clock service, we fuel the local economy, with innovative and timely service and solutions.

The SLOCBE is extremely helpful and instrumental in business growth and development. The Exchange connects contractors with suppliers, facilitating the building and enhancement of relationships as well as increasing transparency and knowledge about upcoming projects. It's great to be so connected to your industry peers and have the ability to establish those long lasting, mutually beneficial working relationships.

JB Dewar has a long history on the Central Coast and an even longer family history in the fueling industry. The first JB Dewar board consisted of John Dewar as President, Jack Dewar as Vice President and John's wife, Mrs. Edith Dewar, as the Secretary/Treasurer. Today, Jack's son, Ken, serves as President of JB Dewar and daughter, Morgan as Operations Manager. So we truly are a "family business" and will continue to be, providing the same values and service of when we first opened 86 years ago, in 1933.

We are also heavily involved in the community. We began a Tractor Restoration Education Program in 2002, to teach young students important life lessons. JB Dewar advises participants, teaching them teamwork, project management, budgeting, planning and marketing skills throughout the process. Each year at the California Mid-State Fair, competitors are provided a platform to share their workmanship, along with opportunities to win scholarship awards. For years JB Dewar, Chevron Delo, together with other local businesses, have awarded over \$100,000 in scholarships. We also are sponsors of the Cuesta College Rodeo Club, affirming our deep appreciation for the agriculture industry around us.

There have been times we've needed some assistance from SLOCBE and were pleased that they are willing to field a phone call or email in order to support us. Even when our questions required some research on SLOCBE's behalf, they were able to deliver answers in a timely manner and with a friendly attitude.

Leslie Hall was the person who influenced our Business Development Manager, Bryan, the most. She is a real go getter, personable and informative. More recently, we have turned to Corri, who has been very helpful and is doing a great job!

Morgan Dewar
Operations Manager

Projects Out To Bid

July 25, 2019

San Benito Elementary School Modernization

Atascadero

BOX 41

BID DATE: 7/25/19 10:00 AM

Owner Rsh Construction, Inc. Merinda Molina merinda@rshconstructioninc.com 805-466-2481

DESCRIPTION:

Modernization of San Benito Elementary School. A non-mandatory job walk will be conducted on Thursday, July 11, 2019 beginning at 8:00am. Meet in front of the office at 4300 San Benito Road, Atascadero, CA 93432. All MEP trades must be prequalified with Atascadero Unified School District. This project is bid at a guaranteed maximum price with no change orders other than Owner initiated adds or deducts. Skilled and trained workforce compliance required.

Federal Bridge Replacement Project Wahtoke Creek Bridge at Lincoln Avenue #19-06-C

Fresno

BOX 62

BID DATE: 7/25/19 2:00 PM

Questions County Of Fresno Public Works & Planning, Design Division DesignServices@fresnocountyca.gov

DESCRIPTION:

ADDENDUM:

1, 2, 3, 4

Estimate: \$2093000.00 \$2313000.00

The work to be done consists, in general, of removing and replacing the existing Wahtoke Bridge on Lincoln Avenue with a new single span bridge 93'-0" in length. The new bridge will be located along the same road alignment at 10 foot higher elevation. The new bridge construction consists of installation of cast-in-place concrete deck and concrete barriers over PC/PS girders, abutments, concrete piles and rock slope protection. The project will also construct 20' concrete approach slab on both sides of the bridge and reconstruct a total of 542-feet length of AC approach roadways. All questions regarding this project shall be in writing and shall be received by the Department of Public Works and Planning, Design Division, no later than 2:00 P.M. on the seventh (7th) calendar day before bid opening. A valid California Contractor's License, Class A (General Engineering), is required for this project. PREVAILING WAGE PROJECT.

City-Wide Wayfinding Signs, DPW #18-15

Paso Robles

BOX 9

BID DATE: 7/25/19 2:00 PM

Project Manager City Of Paso Robles Ms. Ditas Esperanza, P.E ditas@prcity.com 805-237-3861

DESCRIPTION:

ADDENDUM:

1

Estimate: \$210000.00

The work shall include but is not limited to furnishing and installing custom roadway directional signs, poles, foundations, removing and/or relocating existing roadway signs, and patching sidewalk all as shown on the plans and/or as specified herein. Valid Class A (General Engineering Contractor) or C-45 (Sign Contractor). PREVAILING WAGE PROJECT.

RFQ: Land Surveying Services #5009.2019.LS

San Luis Obispo

BOX 57

BID DATE: 7/25/19 2:00 PM

Questions City Of San Luis Obispo - Public Works Department Richard Burde RBurde@slocity.org 805-781-7193

DESCRIPTION:

The City is requesting qualifications from qualified consultants to provide on-call land surveying services. Currently the City is not adequately staffed to perform this work. The City is interested in generating a list of qualified consultants specializing in this type of work to draw from as needed. While the exact list of the City's future land surveying needs is unknown at this time, consultants should expect land survey services will be required to help facilitate the City's Capital Improvement Plan work. Valid City of SLO Business License & tax certificate. PREVAILING WAGE PROJECT.

RFP: Public Boat Launch Facility Rehabilitation Design & Engineering Construction Services			Morro Bay	BOX 55
BID DATE: 7/26/19 2:00 PM				
Questions	City Of Morro Bay	Eric Endersby, Harbor Director	eendersby@morrobayca.gov	805-772-6254

DESCRIPTION:

The project entails the successful Consultant assembling and managing a design and engineering team capable of providing the services necessary to address the following facility elements: 1) The existing three-lane V-grooved concrete ramp, apron, abutments and boarding floats are deteriorated and in need of replacement. The ramp and apron show signs of erosion, scarring and pot-holing which creates traction and tire damage issues. Abutments are cracked, and chunks of concrete are missing. Although the existing concrete pilings are in good shape, the boarding floats, which are approximately 24 years old, have served their useful lives. 2) The parking area has thinning, eroding asphalt, faded striping and is lacking ADA vehicle/trailer stalls. ADA-connectivity between facility elements is lacking, and the existing restroom is in need of ADA upgrades to meet current standards and codes. 3) The existing fish cleaning station and carcass dumpster are outdated and lack features to protect users from aggressive bird activity, which creates health and safety issues for the public, and entrapment and choking issues for the birds. 4) The current facility does not have a separate ramp for the non-motorized boating community. Non-motorized vessels are currently launched from the motorized boarding float which can be 14 to 20 inches above the water level. Competition between motorized and non-motorized boaters often results in user conflicts. 5) Various site utility and rock rip-rap treatments as-needed to accommodate the design elements of the project. Q's by 06/25/19 - 5PM

<http://www.morro-bay.ca.us/bids.aspx?bidID=80>

RFP: Cal Poly Conservatory			San Luis Obispo	BOX 189
BID DATE: 7/26/19 2:00 PM				
Owner	Gilbane Building Company	Nick Cramer Project Engineer	ncramer@gilbaneco.com	805-206-5210

DESCRIPTION:

\$4200000.00

REQUEST FOR PROPOSAL (Invitations will be sent to all bidders successfully meeting prequalification requirements) Gilbane Building Company is seeking qualified Trade Contractors provide construction services for trade categories 21A and 26A required for the Cal Poly San Luis Obispo Conservatory. Bid packages will tentatively be available 7/17/19. Section I - Project Description Cal Poly San Luis Obispo plans to build a new facility on campus, along Village Drive. In addition, this building will provide much needed space to extend Cal Poly's 'Learn by Doing' initiative. This new Conservatory will support the educational priorities of a growing Cal Poly student and faculty population, promote interdisciplinary communities and will also provide much needed research and academic space including student collaboration areas, faculty / staff and a mix of large to medium sized educational spaces. The vision set forth for this Project by Cal Poly's leadership is to create a building that will demonstrate Cal Poly's excellence in faculty mentored student research, its robust embrace of interdisciplinary endeavors and put on full display the ownership of its motto, 'Learn by Doing' at a highly visible and trafficked campus crossroads. The Conservatory is expected to be roughly 6,800 GSF. The project is scheduled to begin construction in August of 2019 and conclude in the December of 2019. The Construction Scope includes: • Sitework including excavation, shoring, and retaining walls • New Hardscape and Landscape • New Structure, including concrete foundations, retaining walls, and steel superstructure • New Exterior Envelope • New Interiors, including walls, floors, ceilings, and finishes • New Building Systems Section II — Trade Packages The following trade categories will be bid: •

21A — Fire Protection • 26A — Fire Alarm Section III — Proposal Submission The successful trade contractor will be required with Gilbane Building Company. Prequalification may be completed through Gilbane's bid management system, iBidPro, using the following link: [https://www.ibidpro.com/The successful Trade Contractor will be required to execute a standard Gilbane contractor agreement. Any and all exceptions to this agreement must be submitted with your proposal. All submissions will be thru iBidPro. July 28, 2019**Request for Interest & PRQ to Trade Contractors: UU Neighborhood - Building 65 Renovation (Phase 1) & Building 19 and Plaza (Phase 2) Project****San Luis Obispo****BOX 6****BID DATE: 7/28/19 4:00 PM****DESCRIPTION:**

The University Union Neighborhood is a renovation of the existing Union (Building 65) and Dining Commons (Building 19) facilities. The project seeks to transform the existing buildings, inclusive of outdoor areas, into a "University Union (UU) Neighborhood". By distributing union program elements to create a diverse downtown atmosphere which provides the opportunity for additional student life programming and encourage students to stay on campus longer. Phase 1, Building 65 - UU Chumash Renovation, Exterior Countertops & Stools, Level 2 Student Space. The Chumash Auditorium updates include a complete acoustical evaluation/upgrade, installation of new acoustical materials on both walls and ceiling, replacement of the entry doors with acoustical doors, revised backstage space usage, new flooring and lighting, installation of automated partitions, rethinking the shape of the stage, and new furniture. New exterior countertops and permanent stools along the UU balcony with power (GFCI and USB) connections. Renovation of Level 2 Student Space and Lounge. Phase 2, Building 19 and Plaza. Through this project, the Dining Complex's mechanical systems will be upgraded, and the building's layout will be redesigned to better accommodate the changing trends in dining and culinary offerings. Scope includes demolition of existing structural components, roof replacement, new windows and storefront glazing, new restaurant spaces and kitchen equipment, added seating and outdoor eating areas. The surrounding UU Plaza will be transformed to include new meeting areas and structures, seating areas, lighting, artificial turf and landscaping. Interested Trade Contractors must advise Kitchell by sending a direct message via the Kitchell CEM Plan Room in Building Connected at <http://bit.ly/kitchellplanroom> or by emailing Kaitlin Ransford at kransford@kitchell.com by July 28, 2019.

OSHA Standards for the Construction Industry – OSHA 510

This course covers Federal OSHA policies, procedures, and standards, as well as construction safety and health principles and is the prerequisite to the OSHA 500 Outreach Trainer for the Construction Industry. Topics include scope and application of the OSHA construction standards. Special emphasis is placed on those areas that are the most hazardous, using OSHA standards as a guide. Learn to apply the appropriate Federal OSHA standard that applies to hazards in the construction industry.

Topics Include:

- Effects of workplace injuries and illnesses
- Mission and importance of OSHA in the workplace
- Organization, origin, codification of OSHA Standards
- Processes and Rules for OSHA inspections, citations, penalties and policies
- OSHA recordkeeping requirements for injuries and illnesses and OSHA forms 300, 300A, and 301
- Programs and requirements in OSHA 29 CFR 1926 that protect construction workers from injuries and illnesses

"CAPITOL CONNECTION - Q&A RESOURCE FOR CONTRACTORS"

Week of 8/ 22 / 19

By Shauna Krause, President, Capitol Services, Inc.

We 'double down' with our first contractor who has more than one concern. A 'slick' answer for an industrial inquiry, with a 'big easy' response for a future Californian...

Q: We currently have a "C-6" (Cabinet, Millwork and Finish Carpentry) license. We need to add the "C-5" (Framing and Rough Carpentry) classification because one of our clients will be giving us a contract for the erection of a wooden frame. However, my boss, who is the current "C-6" license holder, doesn't have four years of experience doing that type of work. We do have an employee who has done drywall framing for 10 years, who has only been with us for a few years. What type of role does the employee take on if we were to use him to Qualify the license? And would this put the license at risk if this employee left in 2 months?

A: If you use one of your employees who has the experience, you can list them as RME (Responsible Managing Employee). That would be his role. RME's are required to work at least 32 hours a week, or 80% of the company's operating time. They are also required to be actively involved in the everyday running of the business.

If he leaves the company, the license has 90 days to replace him.

Q: I need to know if a Contractor's license is required for a company that we frequently hire. We work in the oil field industry and we have a company who comes out and separates hazardous material from the water in the storage tanks and disposes of it. They don't have a Contractor License do they need one?

A: Yes, a "C-61"/"D09" (Drilling, Blasting, and Oil Field) would be the most appropriate classification for the work that you are describing.

Q: I am a licensed Contractor in Louisiana and I am planning on retiring and moving to California (I know, most people move *out* of California when they retire!). One of my fellow contractor buddies was telling me that Louisiana is "reciprocal" with California and I shouldn't have to take the exams. If that's true, I'm all for getting a license to have just in case small jobs come up. However, I'm more hesitant if I will have to take the exams because I'm older and haven't taken a test in years.

A: Your buddy is correct. Very recently, California and Louisiana agreed to reciprocity for the "B" (General Building) classification only. Reciprocity allows you to apply for a waiver of the *Trade*, however the Law portion of the exam is still required. The Law portion of the exam tests your knowledge of how to run a business, so if you've been running your Contracting business for years (and if you study), you probably won't have too much difficulty passing the exam. Good luck and let us know if you would like our help with the process!

Contractor's Note: We have a new *mailing address* below to update your contact files!

While knowledge is power, knowing where to go for the answers is half the battle. Get expert assistance immediately when you call 866-443-0657, email info@cutredtape.com, or write us at Capitol Services, Inc., 3609 Bradshaw Rd, Ste H, #343, Sacramento, CA 95827. Research past columns at www.cutredtape.com.

Aerial Platform Safety

Jobsites are not always at ground level. Sometimes, workers need to use aerial platforms, aerial ladders, articulating boom platforms, vertical towers, or ladder trucks to reach their work. All work has hazards and risks involved in it, but when you work at an elevated height, extra training and attention to safety procedures is a necessity.

In order to work safely with aerial platforms, get training on the operating procedures for your job site and task. Get specialized training on each aerial lift model you will use. Know the risks and hazards involved with aerial work, including your own risk of falling and the hazard of dropping objects on to coworkers below. Learn to tether your tools and equipment and ensure that coworkers underneath the platform are wearing hard hats.

Formal inspections and maintenance of aerial platforms should be scheduled based on the environment and how often the machine is used. Before performing maintenance on an aerial platform, lower it to the full down position. Switch all of the controls to the off position. Apply the brakes and/or use chock blocks. Lock out the power and bleed the hydraulic lines. Never modify or alter your aerial platform without written permission from the manufacturer because changes could alter the structure and stability. Never operate the aerial platform from a scaffold, trailer, or boat without written permission from the manufacturer.

In addition to regular inspections and maintenance, inspect the platform each time before you use it. Look for proper function of the controls. Make sure that the emergency lowering mechanism works. Watch for wear and tear. Check for proper fluid levels and no leaks. Never use equipment if it is not working properly. Tag it out of service until it can be repaired.

When you are planning your work, first ensure that the platform is appropriate to the task. Make sure that loads are within the capacity limit and are stowed properly for stability. Always use the outriggers and stabilizers required for the aerial platform and check for uneven surfaces and debris in the work area. Look for overhead obstructions and electrical lines. Avoid using aerial platforms outside in bad weather and high winds. Don't use an aerial platform if it has to be stabilized against another building or object. Never use your aerial platform as a crane.

Before working on an aerial platform, put on the appropriate fall protection gear. Consider a fall limiter so that you do not fall too far off of the platform. Make sure that guardrails are installed and access gates are closed before you raise the platform. Keep both feet on the platform at all times and do not reach too far out. Do not use lumber or ladders to get additional height on the platform. Do not step on guardrails or gate rungs and do not climb out of the platform for any reason. If you will travel with the aerial platform, go slowly in order to watch for overhead hazards and people down below.

MEMBERSHIP APPLICATION

What the Exchange has to offer...

San Luis Obispo County Builders Exchange is a **501 (c) 6** non-profit contractors association established and founded in 1949 and we serve members throughout the Central Coast. Our members consist of licensed contractors, sub-contractors (all in good standing with the California Contractors State License Board), companies/businesses that are engaged in supplying a product and/or service(s) to the construction industry, as well as architecture, engineering and building design firms.

As a member of our Exchange you will receive the following benefits, discounted for members:

- ◆ Certified OSHA Training Facility—exclusive discounts for SLOCBE Members
- ◆ OSHA Compliance documentation through Got Safety HALF PRICE for SLOCBE Members
- ◆ Workers Comp. program for Members Only - get up to 25% of your premium back with no claims
- ◆ Access to plans & project documents. Online; via our plan room and in our offices in Atascadero and San Luis Obispo
- ◆ We provide blueprint printing & copying service / 24-hr notice (pick-up ready) or while you wait
- ◆ **Weekly Bulletin:** Projects going out to bid, plan holders lists, bidders list and bid results and 9 different city permits
- ◆ With our Online Planroom Service you have 24-hour access to ALL projects in our plan room
- ◆ Opportunities to advertise in our Publication and our website
- ◆ Need help with the DIR? Have prevailing wage questions? We can help with that too at NO extra cost.
- ◆ Free access to all current construction legal forms
- ◆ Free labor law posters
- ◆ Access to our Construction Law Attorney and Employment Law Attorney
- ◆ We offer Seminars and Workshops (a few examples are listed below)
 - ◇ Prevailing Wage and dealing with the DIR for your Public Works Projects
 - ◇ Sexual Harassment
 - ◇ Preliminary Notices and Mechanics Liens
 - ◇ CPR Certification Courses
 - ◇ Forklift Certification Trainings
 - ◇ SWPPS, QSP and the QSD storm water
 - ◇ Confined Space Training
 - ◇ Workers' Comp Insurance & Safety Awareness Training
- ◆ Classified Ads - FREE to members
- ◆ We offer Design services for your advertising and web banner needs for a nominal fee
- ◆ We offer a Scholarship Program for our Members and their children
- ◆ We offer MEMBER ONLY Annual Events like; our Crab Feed, and Golf Tournament both are fund raisers for the Scholarship program, we also have started our quarterly Builders and Brews Mixers for our members.

We would like to invite you to become a member of our exchange, our membership is an application process and can be completed Online via our website, www.slocbe.com, **click on Membership, click on Join** and there you will find our application or call us for our paper application. Our Annual Membership dues are \$350.00 and an additional \$125.00 to access our Online plan room along with a one-time administrative Set-up fee of \$50.00.

Looking forward to you joining the family, if you have any questions please feel free to call (805) 543-7330 or email me at corri@slocbe.com

Respectfully,

Cordelia Perry, Executive Director
